OVERVIEW

Skilled Mobile Developer: Creating intuitive and high-performance apps for a mobile first world.

EXPERIENCE

[Methrex](#) 06/2023 - 10/2023 Mobile Lead

- I led the design and development of a cutting edge fintech mobile application, incorporating industry standard technology. This app plays a pivotal role in managing and annually generating \$10,000+.
- Continuous Integration/Deployment Pipeline Integration, pull requests, code reviews, load/stress testing, unit/integration/e2e testing.

[E app](#) 08/2023 - 10/2023 Mobile Developer

- I Implemented enterprise applications of E app's Content Experiment Platforms using Flutter.
- Designed and developed systems facilitating marketers to perform various optimization experiments within the E app's ecosphere.

[Upbox](#) 12/2022 - 06/2023 Mobile Lead

- I Led the development team in creating open-source logistic mobile app taking charge of the platform for a seamless user experience.
- Conducted in-depth research to inform feature development enhancing the app's usability, efficiency and user satisfaction.

EDUCATION

APTECH computer education (ADSE)

2021 - 2023 Advanced Diploma in Software Engineering

- Focused software development and computer engineering.
